20.05.2022 № 324

To:
Members of EurEau

Dear partners,

On behalf of the Association of Ukrvodokanalekologiya we would like to thank you for your willingness to support the People of Ukraine and Ukrainian water utility companies what continue delivering water supply and sanitation services during these hardest times of the Russian invasion of Ukraine. Thank you for your time during the e-meeting on March 28, 2022 and for understanding our needs, and for any possible support you can provide to water industry in Ukraine.

Damage to electrical, sanitation, water, road and residential infrastructure throughout Ukraine is hampering access to essential services. As a result, almost all water utility companies do not have funds for basic necessities (equipment, reagents for treatment processes). The UN estimates that 12 million people in Ukraine will soon be in need of urgent humanitarian assistance. Our Association is constantly in contact with all water utilities and collect their needs on a daily basis. We have an up-to-date list of emergency needs for water utility companies (Vodokanals) that is attached to this letter as an Annex. We will be very grateful if you will have an opportunity to support us with delivering these items to water companies who need it most urgently. List of this vodokanals may be provided promptly with identification number of beneficiaries and purpose of usage these equipment.

In addition we require support in organizing the delivery of goods both from the countries of the European Union and within Ukraine territory from our humanitarian warehouses to the cities that most need this or that help. We would be very thankful if you will help us with organizing support with transport any available humanitarian aid from EU countries to Ukraine and within the territory of Ukraine with delivering aid to the Vodokanals who need this aid urgently.

We are also grateful to you for the opportunity to share our needs with your members, partners and business organizations that are not indifferent to the fate of Ukrainians.

The humanitarian aid and funds received from all donors will be allocated under strict control to the Ukrainian water utility companies that need it the most with provision proper reports.

Annex:

- List of Emergency list for water utility companies of Ukraine
- Bank account details for Humanitarian Aid.

President of the Association
Ukrvodokanalekolohiia

Dmytro NOVITSKY

ANNEX – LIST OF EMERGENCY NEEDS

ANNEX – EMERGENCY LIST OF NEEDS

Water utilities in the temporarily occupied cities and cities located in the zone of hostilities:

Kyiv, Zhytomyr, Sumy, Kharkiv, Mykolaiv, Irpin, Bucha, Bila Tserkva, Borodyanka, Chernihiv, Kramatorsk, Brovary, Vyshgorod, Boryspil, Korosten, Zaporizhia, Berdyansk, Izum, Chuguiv, Lubny, Myrhorod, Okhtyrka, Mariupol, Kherson, Kakhovka, Nova Kakhovka

LIST OF NEEDS – PROTECTIVE EQUIPMENT FOR WATER UTILITY SERVICE CREWS

No	Protective equipment for workers and WU crews
1	Hand tools, hydrodynamic equipment, welding equipment
2	Walkie-talkies, chlorine-gas protective masks, chemical protection suits and wetsuits
3	Professional First Aid Kits (including blood stoppers medicine and devices)

LIST OF NEEDS – EMERGENCY EQUIPMENT FOR WATER UTILITIES

No	Emergency equipment
1	Transportable diesel motor centrifugal pump for various applications (Performance range from 2m ³ /h to 130 m ³ /h)
2	Alternators with internal combustion engine (petrol/diesel fuel). Capacity from 10 to 70 kW Voltage 220 V and 380 V
3	Submersible drainage pump with a capacity of 100 m ³ /h with hydraulic high-pressure drive from the hydraulic station with a set of hydraulic double hose (15 m) and pressure hose (20 m)
4	Diesel generator with a capacity of 10, 20, 30, 45, 60, 70 kW
5	Electric pump for clean water with a capacity of 16-25 cubic meters per hour complete with pressure hose (20 m) and power cable
6	Stainless Repair Clamps for pipes (DN60 to DN600)
7	Stationary power plant with a capacity from 30 kW to 370 kW
8	Gate valve and Knife gate valves for drinking water application (various diameters)
9	Sewage electric submersible pump with a capacity of 100-200 cubic meters per hour complete with pressure hose (25 m)
10	Large capacity disinfection systems, dosing pumps and compact disinfection systems for proper drinking water disinfection

LIST OF NEEDS – SPECIAL VEHICLES FOR WATER UTILITIES

No	Emergency equipment
1	Water Tank Vehicles, Capacity: 10 m ³ to 20 m ³
2	Dump truck (wheel arrangements: 4x4 or 4x2; Max. load: not less than 6t)
3	Excavator (optional equipment (accessories) could be specified separately)
4	Truck crane (18 to 25t)
5	Septic Tank Pumper Truck - Faecal sludge removal truck
